**RESPONSE TO RESTRICTION REQUIREMENT**

Mail Stop Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Noting the Office Action of April 5, 2006 wherein restriction has been required, Applicant hereby elects, with traverse, Group I (claims 1-62) for prosecution in the above-identified application. In making the restriction requirement, the Examiner holds that the inventions of Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because they lack the same or corresponding special technical features for the reasons set forth on page 2 of the Action. While the Examiner's reasons set forth on page 2 of the Action detail specific differences between the groups of claims, Applicant submits that all claims are concerned with the trading in a market for a commodity and the claims differ only with respect to specific embodiments. Therefore, Applicant submits that there is in fact present a single general inventive concept within the meaning of PCT Rule 13.1. Accordingly, reconsideration of the requirement for restriction is respectfully requested.
